

CERNER SKILLS NEEDED:

REMOTE FULL TIME Classic PathNet Consultant:

We are looking for a consultant with strong Classic Pathnet experience. The project is going to last 1 year and is located in the Southeast. This is mostly REMOTE WORK although the consultant would need to go onsite for the first couple weeks to get acclimated. This will be a full time opportunity and will be mostly working Service requests.

Lead CPOE Project Manager:

We have a need for a Lead Project Manager to assist with the adoption/rollout of CPOE. This candidate must have strong Cerner CPOE experience along with strong Project Management experience. This project will be approximately 9 months in length and is located in Midwest.

Sr. CPOE Builder:

We have a need for a Sr Builder for CPOE/Formulary Clean up. This opportunity will require the candidate to have strong CPOE build experience. It is located in the Midwest and will last approximately 9 months in length.

Order Catalog Clean Up:

This opportunity is for a consultant with good CPOE design/build skills. Our client is preparing for a CPOE implementation and will need to clean up the Order Catalog first. The next stage would be to move into building PowerPlans. The qualified candidate must have strong CPOE and Powerplans experience. The position is located in the Midwest and will be 9 months in length.

** All positions require 100% travel Sunday through Thursday each week.
