

## **Other Opportunities:**

### **NextGen Template Builder:**

We have an immediate need for a NextGen Template Developer/Builder. The qualified consultant must have strong NextGen template experience. The opportunity is 9 months in length and located in the MidWest.

### **NextGen Go Live Resources:**

We are in need of 14-16 1099 consultants for NextGen Go Live support. The first go-lives start Feb 16 and conclude in Dec. The role for these consultants is end user support during the go-lives and immediate support post go-live. The qualified candidates must have Nextgen EMR and have a clinical background.

### **ESM/ERM Consultant:**

We are looking for a person with ESM/ERM skills. This position is located in the northeast and will be at least 6 months in length. Must have ESM/ERM experience.

### **2 Ambulatory Informaticists Needed:**

We have a need for 2 ambulatory informaticists. These opportunities are located in western US for approximately 4-5 months in length. The qualified consultants will be asked to be facilitators, nurse knowledgeable, and understand workflows, but not necessarily product specific workflows. Must have Ambulatory experience. Allscripts experience would be a +.

### **Allscripts Consultants Needed:**

- Ambulatory EHR analysts needed to help build the templates. The qualified candidates need to have ambulatory experience (preferably Allscripts) and must be knowledgeable of the ambulatory environment. This opportunity is at least 6 months and possibly contract to hire.
  
- 2 Trainers/Go Live consultants are needed for a client's e-prescribing roll out to help work with physicians with hands on training; and web demos. This is being rolled out all over the US sites that don't currently have e-prescribing. Several locations across the US. This opportunity is at least 6 months in length and possibly contract to hire.
