

SIEMENS SKILLS NEEDED:

eClinicalWorks Consultant:

These 2-4 consulting positions will be working in an implementation of eCW for 2 physician practices (around 10 docs in each) in the Eastern PA/Philly area. The qualified candidates must have eCW certifications. The emphasis initially is on billing expertise but also needs multi-dimensional eCW consultants that know some of the clinical. These consultants will implement and train staff. These opportunities will be beginning in September. Location: Philadelphia

ARIA Oncology Consultant:

We are looking for an ARIA Analyst. The project will be approximately 6 months and is located in the Southeast.

NextGen Report Writer:

This opportunity is for a NextGen Report Writer Consultant. This position will be responsible for running reports to obtain e-prescribe data and enter bar codes onto printed prescriptions. This opportunity will be in the Southeast and will be approximately 4-6 weeks in length.

OAS Gold Clinical Analyst:

We are in need of 1- 2 additional consultants to fast-track clinical documentation, including physician progress notes, assessments, care plans etc. The consultants must have a knowledge of cve, rounds reports, Orders, and CPOE. Med iv would be a plus. Must be able to work independently and work well with a team. This opportunity will be 3 months in length and located on the East coast. The project is looking to start in early Fall.

DSS Consultant:

Needing a Siemens Data Warehouse consultant for a six month, on site, project. The consultant must be fluent with the Siemens Data Warehouse and be able to program in Crystal and Sequel. The programmer will be given specifications and tasks to perform. Must be an expert with Siemens Data Warehouse. This opportunity is located in the Northeast and will be approximately 6 months in length.

** All positions require 100% travel Sunday through Thursday each week.**
